

Midwest Engineering

Associates, Inc.

## Civil Engineering Services

Midwest Engineering Associates, Inc.'s diverse Civil Engineering portfolio encompasses commercial, industrial, private sector, K-12 and higher education, transportation, & local and federal government clients. We currently have dozens of projects in locations throughout Central Illinois. No matter how challenging a project, chances are Midwest Engineering Associates can handle it. Our focus is on customer service, value, and satisfaction. We bring knowledge, experience, and customer commitment to every job.

While we work for many different types of clients with varying goals and requirements, our projects have helped grow local economies and improve the quality of life for communities and people throughout Central Illinois. As Engineers, we take pride in our achievements and our ability to demonstrate that the only limits on human achievement are those that we place on ourselves.
