

Midwest Engineering

Associates, Inc.

Owner Representation Services

Midwest Engineering Associates, Inc. is a client-oriented Owner's Representative consulting company that provides project management, strategic real estate and facilities planning services to corporate, municipal and institutional clients. We specialize in pre-construction planning, program management, construction administration, space programming, portfolio management, Furniture Fixture & Equipment (FF&E) consulting and relocation management.

Midwest Engineering Associates, Inc. provides comprehensive services to public and private clients from conceptual design through project design, and construction administration and inspection. Our firm provides construction administration and inspection services, including acting as the Owner's Advocate for various construction projects throughout Central Illinois. Our firm brings unique expertise and capabilities to each project, including an excellent track record in planning, design, construction administration, and full-time, on-site inspection services.

During the construction phase of a project, we provide close supervision and related services to coordinate the project with the Owner, Design Professionals and Sub-consultants. Our Project Engineers oversee a contractor's work to ensure proper construction techniques, materials, equipment, and personnel are employed throughout the duration of the project and monitor the contractor's progress and compliance with the Contract Documents. Our firm provides a close review of a contractor's sequence of operations and progress schedule to ensure the successful and timely completion of the project.

We provide superior service and innovative solutions for your project challenges through our experienced and professional people and best-in-class practices.
